Well - it's been a few years since my last group recording and I've been busy playing mostly solo and in duo settings. Even more time - eight years! - has passed from my last CD with originals making up the greater portion of the recording. And up to now I have never recorded with an organ, which has always been very high on my wish list. So it definitely was about time to work on those topics and I am very happy to lead a trio with two wonderful musicians playing my music.

Forgive me to break the rule „ladies first“, but **TONY RENOLD** has been one of my favorite drummers ever since I heard him for the first time more than 25 years ago. Thinking of him as a great, swinging drummer who can offer a wide variety of grooves and sounds (and so easy to work with because his main concern is music instead of ego), he was my first choice for this trio.

Asking Tony about a musician for the organ chair in this band, he quickly came up with **ELISABETH BERNER** and even though I did not know her playing, our first rehearsal put a big smile on my face right after the first few bars.

I really want to give Elisabeth and Tony credit for creating these tunes. Their perfect work ethics, openness and enthusiasm helped a lot - for me never before the working process towards a recording has been so easy and so much fun as this time and I hope the listener will enjoy our music as much as we do!
